Thesis development worksheet

Connect a working claim to checked evidence. Keep longer passages on a separate sheet with the same source locators.

Assignment, source set and draft version

1. Assignment question and required kind of argument

2. Evidence I checked - source, exact locator, support and limit

3. Working thesis - my answer and its reasons

4. Counterargument or new evidence - what changes?

5. Revised thesis and why it changed

6. Introduction promise - context, decision and body checks

Use actual sources and your course instructions. The worked example is on the guide page. This record supplies no grade.
